

Extra Fresh 2000-SX

Product Description

A comprehensive yet meticulously balanced blend of the highest performing natural enzymes currently available for baking applications. The unique enzymes activities not only hydrolyze bonds, as well also enhance and build beneficial bonds. **Extra Fresh 2000-SX** is standardized to consistent activity with unbleached flour for ease of use in a bakery environment.

In this case designed utilizing carefully selected starch splitting enzymes containing secondary activities which influence the structure of the dough, permitting prolonged fresh keeping of a longer shelf life. They modify starch and other constituents in a way that retrogradation is reduced.

ADVANTAGES

Increased baking volume
Improved dough stability/make-up
More relaxed and dryer dough for better machinability
Finer moist crumb structure
Reduction of chemicals / clean label
Increased water absorption
Enhanced gluten development

PRODUCT APPLICATIONS

Variety Breads	Snack Foods
Buns	Tortillas
Bagels	
Rolls	
Wraps	
Crackers	
Pita Breads	

INGREDIENTS DECLARATION

Unbleached Wheat Flour, Natural Enzymes (proprietary blend), Ascorbic Acid.

USAGE LEVELS

.15% - .45% based on net flour weight "bakers percent"

SENSORY CHARACTERISTICS

Color: Off White
Flavor: No off flavors
Odor: Characteristic
Texture: Fine Powder

KOSHER DECLARATION

Orthodox Union, Parve 

PACKAGING AND STORAGE

Packaging: 50lb. Poly lined bag
Storage: Cool, dry area
Shelf Life: 6 months; 12 months when stored between 35°F and 40°F (2°C - 4°C)
